

Tools:

- Chicken Coop board
- Number line cards
- Chicken cards

Equipment check:

- Copy and laminate a Chicken Coop board for each player. Copy, laminate and cut out 5 chickens for each player and one set of number line cards per group.

Start your engine:

- Each player will place his chickens in the coop. The game can be played with 2-4 players and the object is to be the first player to remove all the chickens from the coop. Shuffle and place the number line cards in the center of the table.
- Player One draws a card and identifies the number indicated on the number line. If the player is correct, he removes one chicken from the coop. If the player is incorrect, he may not remove a chicken. Either way it is the next player's turn. Answers may be verified by using the answer key.
- Repeat the process described in the preceding step.
- If the player draws a "Chicken Out" card, he gets to remove a chicken without solving a problem.
- If a player draws a "Chicken Coop" card, he must return a chicken to the coop.

Finish Line:

- The winner of this game is the first player to have had all his chickens "fly the coop!"
