2011 Workshop Pricing Sheet

We currently offer full day workshops for Reading (3rd- 8th), Math (3rd- 8th), Science (3rd- 8th), and K-2. The K-2 workshop can be a full day Science, a full day Reading, or a full day Math. You can also customize your full day K-2 workshop by choosing a combination of any 2 of these choices: ½ day reading, ½ day science, or ½ day math. The following price list is for each individual workshop. If none of the packages listed below fit your needs, please call to discuss other options. Special pricing packages are available for workshops with less than 20 participants. Saturday workshops are an additional \$250.

We are a sole-source company and our workshops are a flat-rate fee!

Option One – Every participant receives \$100.00 worth of additional educational resources! Prices include the presenter's fee, the presenter's expenses, educational resources, and handouts for every participant.

21 – 30 participants = \$5,400 total

31 – 40 participants = \$7,000 total

41 – 60 participants = \$170 per participant

61 – 74 participants = \$165 per participant

75 or more participants = \$160 per participant

Option Two - Every participant receives \$75.00 worth of additional educational resources! Prices include the presenter's fee, the presenter's expenses, educational resources, and handouts for every participant.

21 – 30 participants = \$4,300 total

31 – 40 participants = \$5,100 total

41 – 60 participants = \$ 120 per participant

61 – 74 participants = \$115 per participant

75 or more participants = \$110 per participant

Option Three - Every participant receives \$50.00 worth of additional educational resources! Prices include the presenter's fee, the presenter's expenses, educational resources, and handouts for every participant.

21 – 30 participants = \$3,600

31 – 40 participants = \$4,600

41 – 60 participants = \$110 per participant

61 – 74 participants = \$105 per participant

75 or more participants = \$100 per participant

Every Workshop Includes:

- Research on the Best Teaching Practice
- Instructional Strategies for Struggling Students
- Integrated Curriculum and Differentiated Instruction
- Skills-Based Games and Activities
- Application and Questioning Techniques
- Learner-Centered Instruction
